Flexible doors

PVC Fabrics for flexible doors

Resistant and effective

A technical fabric weaving and coating specialist, Dickson Coatings is an established manufacturer of curtains for flexible door and active in the market for over 30 years. Made with top-quality high-tenacity yarn, our fabrics offer extremely high mechanical resistance and excellent dimensional stability.

Multiple advantages

Using a unique coating process, two tried-and-tested technologies :

The smooth Cleangard topcoat lacquer prevents soiling and facilitates cleaning. A solid protection against weathering.

Dickson's unique anti-wicking process helps the fabric to last longer and look like new.

Moisture penetration zone*.

Total coating impregnation on the yarn.

Dickson Coatings flexible door curtains offer many advantages for processors and end users :

Excellent weldability

Flexible, even at low temperatures

Fold resistant

Optimal resistance to micro-organisms and harsh climates

Whether your doors are for indoor or outdoor use, for folding or rolling, Dickson Coatings offers three products meeting a complete range of needs
